

QUALITY CONTROL.

DRG. No. CW3400QC.

1. Release Notes and Certificates of Conformity for each material batch are held in an identifiable QC File.
2. Each unit carries a three part Serial Number on the Casing which is regarded as the primary or master sub assembly as follows:-

Serial Number

A - B - CCC

where

A = Type of Unit

B = QC File

C = Test Report Number

3. Each unit is accompanied by a Log Book containing the Test Report number and Pre-Delivery Test Results.
4. Units returned for re-furbishment where the Casing is suitable for further use will retain the original Serial Number.
5. Units returned for re-furbishment without a Serial No will be allocated a new Serial Number.

Amdt. P14

February 2006.
